Career Objective

Computer Science undergraduate with a strong interest in backend development and software engineering. Experienced in building REST APIs using FastAPI and developing practical projects involving backend systems, authentication, API integration, and real-world problem solving. Seeking a software engineering or backend development internship to apply technical skills and contribute to production-oriented projects.

Education

Bachelor of Technology in Computer Science **2025 – 2029**
Allenhouse Institute of Technology, Kanpur

Intermediate (PCM) – 81.2% **2024 – 2025**
Uttar Pradesh State Board of High School and Intermediate Education (UPMSP)

High School (Science) – 93.5% **2022 – 2023**
Uttar Pradesh State Board of High School and Intermediate Education (UPMSP)

Technical Skills

Programming Languages: C, C++, Python, Data Structures and Algorithms

Backend Development: FastAPI, REST APIs, API Development, Authentication, CRUD Operations

AI-Assisted Development: Generative AI, Prompt Engineering, AI-assisted coding, debugging, optimization, research, and technical problem-solving

Web Technologies: HTML, CSS, JavaScript

Tools & Platforms: Git, GitHub, VS Code, Antigravity

Concepts: Object-Oriented Programming, Problem Solving, API Integration, Basic Computer Networks

Projects

College Bus Tracking System *FastAPI, HTML, JavaScript*

- Developed a backend system for tracking college buses using real-time GPS location data.
- Built REST API endpoints for driver authentication, bus location updates, and retrieving the current location of a bus.
- Integrated browser-based geolocation to allow the driver's device to continuously provide location information.
- Designed the project with separate models, services, storage, and route layers for better maintainability.

Patient Management System API *Python, FastAPI*

- Developed a RESTful backend API for managing patient information and performing CRUD operations.
- Implemented endpoints for viewing, searching, updating, and sorting patient records.
- Added API validation and interactive API documentation using FastAPI and OpenAPI.
- Used structured project organization and tested endpoints through the FastAPI documentation interface.

Certifications & Activities

- **Smart India Hackathon (SIH) 2026:** Team Participant
- **Certificate of Participation, HackShodh 2026:** 24-hour National Hackathon, Chhatrapati Shahu Ji Maharaj University, Kanpur.
- **Certificate of Appreciation, CodeFuse 2025:** Qualified Round 1 among 600+ participants and participated in the Offline Grand Finale.

Achievements

- Participated in Smart India Hackathon 2026 and contributed to backend development.
- Finalist participant in national-level hackathon and competitive coding events.
